DEEPAK DONGARE

IT MANAGER | IT INFRASTRUCTURE | CLOUD | IAM | CYBERSECURITY

Pune, Maharashtra, India | +91 84250 62561 | deepak.career@hotmail.com | linkedin.com/in/deepak-dongare

PROFESSIONAL SUMMARY

IT Manager with 9+ years of progressive experience in IT infrastructure, cloud operations, cybersecurity, networking, and identity and access management (IAM). Experienced in Microsoft Azure, AWS, Microsoft 365, Microsoft Entra ID, Zero Trust, endpoint and network security, Windows Server, virtualization, and hybrid infrastructure. Strong hands-on and leadership experience in IAM architecture, Identity Governance, Privileged Identity Management (PIM), privileged access, RBAC, MFA, Conditional Access, SSO, federation, OAuth 2.0, OpenID Connect, SAML, and SCIM provisioning. Experienced in IT operations, TISAX readiness, vendor management, IT budgeting, automation, and AI-enabled IT operations.

CORE EXPERTISE

IT Leadership & Operations: IT Management • IT Operations • IT Strategy • IT Governance • Technology Roadmap • Team Leadership • Vendor Management • Procurement • Licensing • IT Budget Planning

IAM & Identity Security: Microsoft Entra ID • IAM Architecture • Identity Governance • PIM • Privileged Access • PAM Fundamentals • Access Reviews • RBAC • Joiner-Mover-Leaver Lifecycle • MFA • Conditional Access • SSO • Federation • OAuth 2.0 • OpenID Connect • SAML • SCIM • Zero Trust

Cybersecurity & Compliance: Identity Security • Endpoint Security • Network Security • Microsoft Defender • Microsoft Intune • Sophos Firewall • Sophos Endpoint • VPN • Network Segmentation • Firewall Hardening • SSL/TLS • TISAX Readiness

Cloud & Infrastructure: Microsoft Azure • AWS • Microsoft 365 • Exchange Online • SharePoint • Teams • Windows Server • Active Directory • Hyper-V • VMware • Hybrid Infrastructure • Backup • Disaster Recovery • Business Continuity

Networking, Automation & AI: LAN/WAN • TCP/IP • Routing • Switching • DNS • Secure Remote Access • PowerShell • Python • Workflow Automation • Generative AI • LLMs • Agentic AI • Git • GitHub

PROFESSIONAL EXPERIENCE

IT MANAGER

RealThingks GmbH, Pune, India | Aug 2023 – Present

• Lead end-to-end IT operations across infrastructure, cloud, cybersecurity, identity, networking, virtualization, endpoints, Microsoft 365, business applications, domains, and DNS.

• Own enterprise IAM and identity security using Microsoft Entra ID, including IAM architecture, Identity Governance, Privileged Identity Management (PIM), privileged access, Access Reviews, RBAC, MFA, Conditional Access, SSO, federation, OAuth 2.0, OpenID Connect, SAML, and SCIM provisioning.

• Apply Zero Trust and least-privilege principles to strengthen authentication, authorization, privileged access, and secure application access.

• Manage Microsoft Azure, AWS, and Microsoft 365 environments, including cloud administration, licensing, service operations, and security controls.

• Lead endpoint and network security using Microsoft Intune, Microsoft Defender, Sophos Firewall, and Sophos Endpoint; manage VPN, NAT, network segmentation, and security hardening.

• Maintain Windows Server, Hyper-V, and VMware environments and oversee backup, disaster recovery, and business continuity requirements.

• Lead TISAX readiness through security gap assessments, control implementation, documentation, evidence preparation, and continuous improvement.

• Drive IT automation and AI-enabled operations using PowerShell, Python, Generative AI, LLMs, and agentic workflows.

• Manage vendors, procurement, technology evaluation, licensing, and IT budget planning aligned with business priorities.

SENIOR NETWORK ENGINEER

FinIQ Consulting, Pune, India | Jun 2018 – Aug 2023

• Managed enterprise network and infrastructure environments supporting fintech platforms used by global banking clients.

• Designed, configured, and maintained LAN/WAN, routing, switching, VPN, and secure connectivity with focus on availability, performance, and controlled change.

• Supported production, development, and test environments; resolved infrastructure incidents and improved reliability, security, and operational readiness.

• Managed Windows Server, virtualization, infrastructure monitoring, backup, disaster recovery, and day-to-day operational support.

• Supported hybrid and cloud-connected infrastructure across Microsoft Azure and AWS.

• Automated repetitive network and infrastructure administration using PowerShell and scripting.

NETWORK ENGINEER

Swipe Mobile Limited, Pune, India | Nov 2016 – May 2018

• Managed LAN/WAN infrastructure, enterprise connectivity, troubleshooting, and day-to-day network operations.

• Configured and supported network devices, connectivity services, Windows endpoints, and core IT infrastructure.

• Supported technology rollouts, hardware deployment, asset lifecycle activities, and infrastructure issue resolution.

SELECTED LEADERSHIP PROJECTS & INITIATIVES

Enterprise IAM & Zero Trust: Strengthened identity security through Microsoft Entra ID, MFA, Conditional Access, RBAC, privileged access, identity governance, and secure application access.

TISAX Readiness: Led security gap assessment, control implementation, documentation, evidence preparation, and operational security hardening.

Internal Business Platforms: Built CRM, IT Asset Management, and Employee Skill Management platforms to improve visibility and reduce spreadsheet-based processes.

AI-Enabled IT Operations: Applied PowerShell, Python, Generative AI, LLMs, and agentic workflows to research, troubleshoot, document, automate, and support internal development.

CAREER HIGHLIGHTS

• 9+ years of experience across enterprise IT infrastructure, networking, cloud-connected environments, cybersecurity, and IT operations.

• Current IT Manager with end-to-end ownership spanning cloud, identity, endpoint, network, server, and business IT services.

• Career progression from Network Engineer to Senior Network Engineer to IT Manager.

• Experience combining hands-on technical delivery with IT leadership, governance, vendor coordination, and operational planning.

EDUCATION

Bachelor of Engineering (B.E.) – Electronics & Telecommunication Engineering
Samarth College of Engineering, Savitribai Phule Pune University | 2016 | First Class
